Ascorbyl Palmitate 5% in Tonalin®

Chemical name of active ingredient
Conjugated Linoleic Acid (CLA)

CAS-No.

2540-56-9	cis-9, trans-11 CLA
2420-56-6	trans-10, cis-12 CLA

PRD-No.
30549155

Articles*

50241699	180 kg steel drum

*packed under inert gas

Country of origin
Germany

Description
Ascorbyl Palmitate 5% in Tonalin® is a clear, fully transparent, colorless to slightly yellow oil at room temperature with characteristic taste and odor. It is comprised of ascorbyl palmitate diluted in Tonalin oil.

Composition
Ingredients in descending order of weight:
Conjugated linoleic acid glycerides from safflower oil, ascorbyl palmitate (E304), tocopherol-rich extract (E306).

Solubility
Insoluble in water; sparingly soluble in ethanol, miscible with organic solvents, vegetable oils and fats.

CLA cis-9, trans-11
cis-9, trans-11 conjugated octadecadienoic acid

CLA trans-10, cis-12
trans-10, cis-12 conjugated octadecadienoic acid

$C_{18}H_{32}O_2$ **Molar mass 280.44 g/mol**

Specification

CLA content (related to active ingredient)	750 – 800 mg/g (typical value 770 mg/g)

For further information see separate document: “Standard Specification” (not for regulatory purposes) available via BASF’s WorldAccount: https://worldaccount.basf.com (registered access).

Standards
Product is kosher and halal. Produced under ISO 9001, FSSC 22000 Certification.

Regulations
Conjugated linoleic acid is approved for use as a dietary supplement ingredient in most countries. However, specific regulations on the product and its ingredients in the respective countries and for its intended use have to be observed.
Ascorbyl palmitate 5% in Tonalin® is derived from IP-certified and not genetically modified raw materials and is thus not subject to labeling under EU Regulations (EC) 1829/2003 and 1830/2003.

Stability, Storage and Handling

Stored in its unopened original packaging at 2 – 25°C the product is stable for at least 36 months. The product is sensitive to atmospheric oxygen, light and heat. It should therefore be stored in the tightly sealed, lightproof packaging in a cool place. Once opened, it is recommended to use the remaining contents as quickly as possible.

Notes

Ascorbyl palmitate 5% in Tonalin® must be handled in accordance with the Material Safety Data Sheet.

Tonalin® Conjugated Linoleic Acid (CLA) is an exclusively licensed product of the BASF group.
