

# Raptor®

Herbicide

## Post Emergence Weed Control in Dry Beans

### Benefits of Raptor® Herbicide

- Broad spectrum post emergent weed control
- Controls grass and broadleaf weeds including hairy nightshade

Provides broad-spectrum postemergence broadleaf and grass weed control in dry beans.

### Bean Types (Dry)

- Adzuki
- Anazazi
- Black
- Black Turtle
- Cranberry
- Great Northern
- Navy
- Navy
- Pink
- Pinto
- Red kidney
- Small red
- Small white

### Application of Additives

	COC		MSO		UAN		AMS
Dry Beans	1%	or	1%	and	2.5%	or	12-15 lb./ 100 gal.

Technical Information Bulletin

 **BASF**  
The Chemical Company

## Best Use Recommendations

- Use Rate: 4.0 oz/A
- Ground: Minimum of 10 GPA
- Air: Minimum of 5 GPA
- Basagran® Herbicide Addition:
  - Always add 6-16 fl oz/A of Basagran® herbicide or 12-24 fl oz/A of Rezult® herbicide
  - Use the highest rate with high weed pressure, larger weeds, or when kochia, sunflower or common lambsquarters is present
- A preemergent herbicide such as Outlook® herbicide or Prowl® herbicide is recommended

### Application Timing

- Dry Beans: after the first trifoliate leaf has expanded but prior to bloom
- Weeds: apply when weeds are 1-3 inches tall or wide

## Weeds Controlled<sup>1</sup> with Raptor® Herbicide + Basagran® Herbicide

- |                     |                                |
|---------------------|--------------------------------|
| ■ Bedstraw          | ■ Tansymustard, green          |
| ■ Chickweed, common | ■ Brome, downy                 |
| ■ Mustard, tumble   | ■ Cereals, volunteer           |
| ■ Mustard, wild     | ■ Foxtail, green               |
| ■ Nightshade, black | ■ Foxtail, yellow              |
| ■ Nightshade, hairy | ■ Oats, wild                   |
| ■ Pennycress, field | ■ Corn, volunteer <sup>2</sup> |
| ■ Pigweed, redroot  | ■ Cocklebur, common            |
| ■ Shepherdspurse    |                                |

### Weeds Suppressed

- |                       |                    |
|-----------------------|--------------------|
| ■ Buckwheat, wild     | ■ Barnyardgrass    |
| ■ Kochia <sup>3</sup> | ■ Crabgrass, large |
| ■ Knotweed, prostrate | ■ Quackgrass       |
| ■ Purslane, common    |                    |

<sup>1</sup>Partial weed control list. Refer to product label for complete weed control list.

<sup>2</sup>Non-imidazolinone tolerant corn.

<sup>3</sup>Non-ALS resistant kochia.
