

Information Sheet Product Safety

Page: 1/4

BASF Information Sheet Product Safety - No substitute for the safety data sheet !

Date / Revised: 27.06.2025

Version: 1.0

Product: **Foamaster® MO 2190 S**

(ID no. 30860112/ISP_GEN_RW/EN)

Date of print 21.10.2025

1. Substance/preparation and company identification

Foamaster® MO 2190 S

Use: defoamer

Company:

BASF SE

67056 Ludwigshafen

GERMANY

Global Business Unit Resins and Additives

Telephone: +49 621 60-0

E-mail address: ed-psr@basf.com

2. Chemical nature

Preparation based on: hydrocarbons, non-ionic surfactants

3. Specific ingredients

Product does not contain:

bisphenol A

Alkylphenol ethoxylate (APEO)

aromatic amines

Azo dyes or pigments which, as a result of the reductive cleavage of azo groups, can form any of the carcinogenic amines listed in e.g. the "German Consumer Goods Ordinance", TRGS 614 or Directive 2002/61/EC.

Substances listed in regulation (EU) No 1169/2011, Annex II (substances or products causing allergies or intolerances)

Genetically modified organism

Natural latex

Nitrosamines

Nonylphenol ethoxylates (NPE)

BASF Information Sheet Product Safety - No substitute for the safety data sheet !

Nonylphenols (NP)
 organic tin compound
 Ozone depleting substances
 Perfluorinated tensides (PFT)
 Perfluorooctane sulfonates (PFOS)
 Phthalates
 Polybrominated Diphenylether (PBDE)
 Polycyclic aromatic hydrocarbons (PAH)
 Benzophenone and derivatives
 bisphenol-derivates
 Conflict minerals or their derivates according to DRC Protection Act, Sec. 1502
 optical brighteners
 formaldehyde releasers
 Organic tin compounds.
 organic tin
 aromatic components
 Rubber latex
 isocyanates
 PBT-substance(s)
 vPvB-substance(s)

The a.m. substances are not used in the manufacture of the product either as raw materials or as additives. Therefore the title product has not been analyzed for these substances. However, based on our knowledge of the composition of the raw materials and additives and the manufacturing process involved, it can be stated with a reasonable degree of certainty that the a.m. substances should not be present in the product, except those small ubiquitous traces, which may be detectable all over the world.

4. Status of registration in inventories

Country	List/Inventory	Registration status
Australia	AICIS, AU	Contains non-registered, non-listed substance. Individual registration may be required. Please contact your BASF representative.
Canada	DSL, CA	Contains registered, non-listed substance. For import, individual registration may be required. Can be purchased domestically from BASF. Please contact your BASF representative.
China	IECSC, CN	This product contains components which are subject to registration. Please contact your BASF representative.
Japan	ENCS/IS, JP	Contains non-registered, non-listed substance.
Korea (south)	ECL, KR	This product contains components which are subject to registration. Please contact your BASF representative.
New Zealand	NZIOC, NZ	Contains non-registered, non-listed substance. Individual registration or notification may be required.
Philippines	PICCS, PH	Contains registered, non-listed substance.

		For import, individual registration may be required. Can be purchased domestically from BASF. Please contact your BASF representative.
Taiwan	TCSI, TW	Contains non-registered, non-listed substance. Individual registration may be required.
USA	TSCA, US	Contains registered, non-listed substance. For import, individual registration may be required. Can be purchased domestically from BASF. Please contact your BASF representative.

5. Registration in product registers

The product information has not been checked. If required, appropriate checks can be made on request.

6. Food contact regulations

Please contact the designated contact person with regard to questions on conformance with food safety regulations.

F o r n o t i c e : Appropriate processing conditions for the articles have to be applied. The suitability of the articles for the application concerned, including their effect on smell and taste of the food, and observance of any given limitations (for example overall migration, specific limits and other analytical requirements) must be tested and ensured in each case by the person who introduces the articles into circulation.

7. Branch specific regulations

Toy standard:

A statement on the new EU toy safety directive can be provided separately.

RoHS Directive (2011/65/EU) and WEEE Directive (2012/19/EU):

Meets the award criteria.

CONEG (Coalition of Northeastern Governors, USA):

The product meets the heavy metal limits of the above listed reference.

Vertical lines in the left hand margin indicate an amendment from the previous version.

This 'Information sheet product safety' provides supplementary information on legal as well as branch specific regulations on chemicals for our products not covered by the material safety data sheet. This information is based on our knowledge and experience at the revision date. The data in our information sheet does not imply either a warranty nor the contractual agreement on the properties of our products. A suitability of our products for a specific purpose is herewith not declared. We especially do not guarantee a suitability of our products for application in the area of medicinal or pharmaceutical use. Due to the
