* These typical values should not be interpreted as specifications.

Applications

Joncryl 678 is a general purpose, mid-range molecular weight resin for water-based inks, pigment dispersions, and overprint varnishes. It promotes gloss, holdout, and resolubility in printing ink and overprint varnish formulations and can also be used to produce inorganic and organic pigment dispersions.

Joncryl 678 is recommended for applications such as:

- Inorganic/organic pigment dispersions
- Printing inks for flexographic or gravure applications
- Overprint varnish applications

Safety

General

The usual safety precautions when handling chemicals must be observed. These include the measures described in Federal, State and Local health and safety regulations, thorough ventilation of the workplace, good skin care and wearing of protective goggles.

Safety Data Sheet

All safety information is provided in the Safety Data Sheet for Joncryl 678.
