

## Information Sheet Product Safety

Page: 1/4

BASF Information Sheet Product Safety - No substitute for the safety data sheet !

Date / Revised: 01.10.2025

Version: 2.3

Product: **Joncryl® 1685 ap**

(ID no. 30664941/ISP\_GEN\_RW/EN)

Date of print 15.10.2025

### 1. Substance/preparation and company identification

#### **Joncryl® 1685 ap**

Use: polymers for inks, varnishes or coatings

Company:

BASF SE

67056 Ludwigshafen

GERMANY

Global Business Unit Resins and Additives

Telephone: +49 621 60-0

E-mail address: ed-psr@basf.com

### 2. Chemical nature

Sodium salt of modified styrene acrylic polymers, in water

### 3. Specific ingredients

**VOC content:**

Basis of registration: Directive 2004/42/CE of the European Parliament and of the Council organic compounds on the limitation of emissions of volatile organic compounds due to the use of organic solvents in certain paints and varnishes and vehicle refinishing products

Volatile organic compound VOC: approx. 0,3 %

Remarks: VOC content based on monomers

**Product does not contain:**

bisphenol A

Alkylphenol ethoxylate (APEO)

aromatic amines

Azo dyes or pigments which, as a result of the reductive cleavage of azo groups, can form any of the carcinogenic amines listed in e.g. the "German Consumer Goods Ordinance", TRGS 614 or Directive 2002/61/EC.

Substances listed in regulation (EU) No 1169/2011, Annex II (substances or products causing allergies or intolerances)

Genetically modified organism

Natural latex

Nitrosamines

Nonylphenol ethoxylates (NPE)

Nonylphenols (NP)

organic tin compound

Ozone depleting substances

Perfluorinated tensides (PFT)

Perfluorooctane sulfonates (PFOS)

Phthalates

Polybrominated Diphenylether (PBDE)

Polycyclic aromatic hydrocarbons (PAH)

Substances, listed in Regulation 2011/65/EU, Annex II (previously 2002/95/EU; RoHS)

isocyanate

Benzophenone and derivatives

Conflict minerals or their derivatives according to DRC Protection Act, Sec. 1502

optical brighteners

formaldehyde releasers

The a.m. substances are not used in the manufacture of the product either as raw materials or as additives. Therefore the title product has not been analyzed for these substances. However, based on our knowledge of the composition of the raw materials and additives and the manufacturing process involved, it can be stated with a reasonable degree of certainty that the a.m. substances should not be present in the product, except those small ubiquitous traces, which may be detectable all over the world.

#### 4. Status of registration in inventories

| Country                       | List/Inventory | Registration status   |
|-------------------------------|----------------|---|
| Australia                     | AICIS, AU      | Listed in AICIS or exempted. Restrictions/information requirement obligations may apply. Please contact your BASF representative. |
| Canada                        | DSL, CA        | All substances are listed.  |
| China                         | IECSC, CN      | Listed or exempted.   |
| Relevant for Regulation REACH | REACH          | Please contact your BASF representative.  |
| Great Britain                 | REACH          | Please contact the responsible product stewards & regulatory department of your region for more information.                      |
| Japan                         | ENCS/IS, JP    | Not listed.   |
| Korea (south)                 | ECL, KR        | This product contains components which are subject to registration. Please contact your BASF representative.                      |
| New Zealand                   | NZIOC, NZ      | Not listed.   |
| Philippines                   | PICCS, PH      | Can be purchased domestically from BASF. Please contact your BASF representative.   |

## 5. Registration in product registers

| Country     | Number         |
|-------------|----------------|
| South Korea | C2025060900515 |

If required, notifications in other national product registers can be made on request.

## 6. Food contact regulations

Please contact the designated contact person with regard to questions on conformance with food safety regulations.

### **RoHS Directive (2011/65/EU) and WEEE Directive (2012/19/EU):**

None of the substances specified in the above reference is intentionally added by BASF during production of this product.

However, please be aware that our products should be considered as large volume industrial products and traces of naturally occurring impurities cannot be excluded.

### **CONEG-Regulations (USA):**

None of the substances specified in the above reference is intentionally added by BASF during production of this product.

However, please be aware that our products should be considered as large volume industrial products and traces of naturally occurring impurities cannot be excluded.

**For notice:** Appropriate processing conditions for the articles have to be applied. The suitability of the articles for the application concerned, including their effect on smell and taste of the food, and observance of any given limitations (for example overall migration, specific limits and other analytical requirements) must be tested and ensured in each case by the person who introduces the articles into circulation.

## 7. Branch specific regulations

### **Toy standard:**

Directive 2009/48/EC on the safety of toys

A statement on the new EU toy safety directive can be provided separately.

Vertical lines in the left hand margin indicate an amendment from the previous version.

This 'Information sheet product safety' provides supplementary information on legal as well as branch specific regulations on chemicals for our products not covered by the material safety data sheet. This information is based on our knowledge and experience at the revision date. The data in our information sheet does not imply either a warranty nor the contractual agreement on the properties of our products. A suitability of our products for a specific purpose is herewith not declared. We especially do not guarantee a
