Polychlorinated biphenyls/terphenyls

primary aromatic amines calc. as aniline

Paraffin waxes and Hydrocarbon waxes, chloro

Perfluorooctanoic acid (PFOA)

The a.m. substances are not used in the manufacture of the product either as raw materials or as additives. Therefore the title product has not been analyzed for these substances. However, based on our knowledge of the composition of the raw materials and additives and the manufacturing process involved, it can be stated with a reasonable degree of certainty that the a.m. substances should not be present in the product, except those small ubiquitous traces, which may be detectable all over the world.

As our products are produced under commercial industrial conditions the presence of trace quantities of impurities cannot be excluded.

But every effort is made to ensure that they are at a minimum level.
