

# Safety data sheet

Page: 1/11

BASF Integrated Site (Guangdong) Co. Ltd. Safety data sheet according to the United Nations' Globally Harmonized System (UN GHS)

Date / Revised: 07.08.2024

Version: 1.0

Product: **Easiplas® HDPE F 6095 T**

(ID no. 30854466/SDS\_GEN\_00/EN)

Date of print 21.08.2025

## 1. Identification

### Product identifier

**Easiplas® HDPE F 6095 T**

### Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Chemical

### Details of the supplier of the safety data sheet

Company:

BASF Integrated Site (Guangdong) Co. Ltd.  
300 Gangnan Road  
Zhanjiang Economic & Technological  
Development Zone  
Zhanjiang, Guangdong Province  
524076, PRC  
CHINA

Telephone: +86 0759-3641688

E-mail address: china-psr-sds@basf.com

### Emergency telephone number

International emergency number:

Telephone: +49 180 2273-112

---

## 2. Hazards Identification

## Classification of the substance or mixture

### According to UN GHS criteria

No need for classification according to GHS criteria for this product.

## Label elements

### Globally Harmonized System (GHS)

The product does not require a hazard warning label in accordance with GHS criteria.

## Other hazards

### According to UN GHS criteria

Dust can form an explosive mixture with air.

---

## 3. Composition/Information on Ingredients

### Substances

Not applicable

### Mixtures

#### Chemical nature

Polymer based on: polyethylene (PE)  
copolymer

#### Hazardous ingredients (GHS)

According to UN GHS criteria

No particular hazards known.

---

## 4. First-Aid Measures

### Description of first aid measures

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air.

On skin contact:

Wash thoroughly with soap and water

On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

On ingestion:

Rinse mouth and then drink 200-300 ml of water.

### **Most important symptoms and effects, both acute and delayed**

Symptoms: (Further) symptoms and / or effects are not known so far

Hazards: (Further) symptoms and / or effects are not known so far

### **Indication of any immediate medical attention and special treatment needed**

Treatment: Symptomatic treatment (decontamination, vital functions).

---

## **5. Fire-Fighting Measures**

### **Extinguishing media**

Suitable extinguishing media:

foam, dry powder, water spray

Unsuitable extinguishing media for safety reasons:

carbon dioxide, water jet

Additional information:

Avoid whirling up the material/product because of the danger of dust explosion.

Use extinguishing measures to suit surroundings.

If a metal fire occurs, use dry sand, dry powder for Class D or cement.

### **Special hazards arising from the substance or mixture**

Cool endangered containers with water-spray. See SDS section 7 - Handling and storage.

### **Advice for fire-fighters**

Special protective equipment:

Wear a self-contained breathing apparatus. Special protective equipment for firefighters

Further information:

Evacuate area of all unnecessary personnel. Fight fire from maximum distance.

Extend fire extinguishing measures to the surroundings.

---

## 6. Accidental Release Measures

### Methods and material for containment and cleaning up

Collect waste in suitable containers, which can be labeled and sealed.

---

## 7. Handling and Storage

### Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice. Avoid the formation and build up of dust - danger of dust explosion.

Protection against fire and explosion:

Avoid all sources of ignition: heat, sparks, open flame. The product is capable of dust explosion.

Avoid dust formation. When the product is ground (chopped), dust explosion regulations should be noted. Avoid impact, friction and electrostatic loading.

---

## 8. Exposure Controls/Personal Protection

### Control parameters

Components with occupational exposure limits

25087-34-7: 1-Butene, polymer with ethene

### Exposure controls

Personal protective equipment

Respiratory protection:

Breathing protection if dusts are formed.

Hand protection:

Suitable materials also with prolonged, direct contact (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN ISO 374-1):

Manufacturer's directions for use should be observed because of great diversity of types.

Eye protection:

In order to satisfy general industrial hygiene rules safety glasses with side-shields (e.g. EN 166) are recommended.

Body protection:

No body protection required if used for intended purpose and satisfying generally accepted industrial hygiene rules.

General safety and hygiene measures

Avoid inhalation of dusts/mists/vapours. No special precautions necessary. When using do not eat or drink. When using do not smoke.

---

## 9. Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

State of matter:	solid
Form:	granules
Colour:	almost white
Odour:	odourless
Odour threshold:	not determined
boiling temperature:	The substance / product decomposes therefore not determined.
Flammability:	Product is combustible.
Lower explosion limit:	For solids not relevant for classification and labelling.
Upper explosion limit:	For solids not relevant for classification and labelling.
Flash point:	not applicable, the product is a solid
pH value:	substance/mixture is non-soluble (in water)
Viscosity, dynamic:	not applicable, the product is a solid
Thixotropy:	not thixotropic
Solubility in water:	insoluble
Vapour pressure:	not applicable
Relative density:	0,8 - 1,2 (20 °C)
Density:	0,8 - 1,2 g/cm <sup>3</sup> (20 °C)

### 9.2. Other information

#### Information with regard to physical hazard classes

##### Explosives

Explosion hazard: not explosive

##### Oxidizing properties

Fire promoting properties: not fire-propagating

#### Other safety characteristics

Hygroscopy: Non-hygroscopic

SAPT-Temperature: Study scientifically not justified.

## 10. Stability and Reactivity

### Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

**Chemical stability**

The product is chemically stable.

**Possibility of hazardous reactions**

Dust explosion hazard.

**Conditions to avoid**

No conditions to avoid anticipated.

**Incompatible materials**

Substances to avoid:

No substances known that should be avoided.

**Hazardous decomposition products**

Possible thermal decomposition products:

Incomplete combustion results in formation of toxic gases, containing mainly carbon monoxide and carbon dioxide.

---

**11. Toxicological Information****Information on toxicological effects**Acute toxicity

Assessment of acute toxicity:

Virtually nontoxic after a single ingestion.

Virtually nontoxic by inhalation.

Virtually nontoxic after a single skin contact.

Experimental/calculated data:

ATE (oral): > 5.000 mg/kg

ATE (by inhalation): > 5 mg/l

Determined for dust

ATE (dermal): > 5.000 mg/kg

Irritation

Assessment of irritating effects:

Not irritating to eyes and skin. The product has not been tested. The statement has been derived from the properties of the individual components.

Respiratory/Skin sensitization

## Assessment of sensitization:

The chemical structure does not suggest a sensitizing effect. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Germ cell mutagenicity

## Assessment of mutagenicity:

The chemical structure does not suggest a specific alert for such an effect. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Carcinogenicity

## Assessment of carcinogenicity:

Not expected to be carcinogenic (based on composition). The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Reproductive toxicity

## Assessment of reproduction toxicity:

Based on the ingredients, there is no suspicion of a toxic effect on reproduction. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Developmental toxicity

## Assessment of teratogenicity:

Based on the ingredients, there is no suspicion of a teratogenic effect. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Specific target organ toxicity (single exposure)

## Assessment of STOT single:

Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

Remarks: The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Repeated dose toxicity and Specific target organ toxicity (repeated exposure)

## Assessment of repeated dose toxicity:

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Aspiration hazard

Study scientifically not justified.

#### Other relevant toxicity information

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses. The product has not been tested. The statement has been derived from the properties of the individual components.

## 12. Ecological Information

### **Toxicity**

Assessment of aquatic toxicity:

At the present state of knowledge, no negative ecological effects are expected.

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

### **Persistence and degradability**

Assessment biodegradation and elimination (H<sub>2</sub>O):

Experience shows this product to be inert and non-degradable. The product is virtually insoluble in water and can thus be separated from water mechanically in suitable effluent treatment plants.

### **Bioaccumulative potential**

Assessment bioaccumulation potential:

Significant accumulation in organisms is not to be expected.

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

### **Mobility in soil**

Assessment transport between environmental compartments:

Volatility: The substance will not evaporate into the atmosphere from the water surface. The product has not been fully tested. The statements have been derived in parts from products of a similar structure or composition.

### **Results of PBT and vPvB assessment**

According to Annex XIII of Regulation (EC) No.1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH): The product does not fulfill the criteria for PBT (Persistent/bioaccumulative/toxic) and vPvB (very persistent/very bioaccumulative). Self classification

### **Other adverse effects**

The product does not contain substances that are listed in Annex I of Regulation (EC) 2037/2000 on substances that deplete the ozone layer.

---

## 13. Disposal Considerations

### Waste treatment methods

Dispose of in accordance with national, state and local regulations.

Contaminated packaging:

Disposal must be made according to official regulations.

---

## 14. Transport Information

### Land transport

ADR

Not classified as a dangerous good under transport regulations

UN number or ID number: Not applicable

UN proper shipping name: Not applicable

Transport hazard class(es): Not applicable

Packing group: Not applicable

Environmental hazards: Not applicable

Special precautions for user: None known

RID

Not classified as a dangerous good under transport regulations

UN number or ID number: Not applicable

UN proper shipping name: Not applicable

Transport hazard class(es): Not applicable

Packing group: Not applicable

Environmental hazards: Not applicable

Special precautions for user: None known

### Inland waterway transport

ADN

Not classified as a dangerous good under transport regulations

UN number or ID number: Not applicable

UN proper shipping name: Not applicable

Transport hazard class(es): Not applicable

Packing group: Not applicable

Environmental hazards: Not applicable

Special precautions for user: None known

Transport in inland waterway vessel

Not evaluated

### **Sea transport**

#### IMDG

	Not classified as a dangerous good under transport regulations
UN number or ID number:	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
Special precautions for user	None known

### **Air transport**

#### IATA/ICAO

	Not classified as a dangerous good under transport regulations
UN number or ID number	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
Special precautions for user	None known

### **Maritime transport in bulk according to IMO instruments**

Maritime transport in bulk is not intended.

---

## **15. Regulatory Information**

### **Safety, health and environmental regulations/legislation specific for the substance or mixture**

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

---

## **16. Other Information**

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. This safety data sheet is neither a Certificate of Analysis (CoA) nor technical data sheet and shall not be mistaken for a specification agreement. Identified uses in this safety data sheet do neither represent an agreement on the corresponding contractual quality of the substance/mixture nor a contractually designated use. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.

Safety data sheet according to the United Nations' Globally Harmonized System (UN GHS)

Date / Revised: 07.08.2024

Version: 1.0

Product: **Easiplas® HDPE F 6095 T**

(ID no. 30854466/SDS\_GEN\_00/EN)

Date of print 21.08.2025
