

# Foamaster® MO 2172

A 100% active, mineral oil defoamer

### Application:

**Foamaster MO 2172** is a 100% active, mineral oil defoamer. It is composed of a hydrophobic, silica blend containing mineral oil. This defoamer is specially designed for water-based paints, aqueous adhesives, and synthetic latex manufactured products. It imparts excellent defoaming in water-based paints and adhesives. Additionally, it is compatible and useful in all major latexes.

### Sustainability Highlights:

- Low Odor
- APEO-Free
- Low VOC

### Performance Highlights:

- Water-free - the absence of water reduces shipping costs and prevents internal microbial activity
- Produces films free of fish-eyes and craters
- Provides high defoaming efficiency in alkaline or acidic systems
- Dispersible in water to an unusually high degree
- Does not detract from tinting color development

### Characteristic Values:

Foamaster MO 2172	
Appearance:	Opaque light-yellow liquid
Density:	~ 7.9 – 7.9 lb/gal
Water Content:	~ 0 – 0.5% mass
Viscosity:	~ 200 – 700 cp
pH Value:	~ 5.5 – 7.5
