

Basagran® 5L

Herbicide

Flexible, Effective, and Even Easier To Use

Benefits of Basagran® 5L Herbicide

- Broad spectrum post emergent weed control
- Flexible and effective broadleaf weed control in a variety of crops
- Easier to handle, more concentrated formulation

Flexible, effective weed control in legumes and other crops, in a more concentrated, easier to handle formulation.

Velvet Leaf Weed Control

Untreated

Basagran 5L Herbicide
(27 fl oz/A)

BASF Research Trial, Champaign IL, 2013. 14 DAT.

Technical Information Bulletin

Formulation and Packaging

- Formulation: Soluble liquid
 - Bentazon (5#/gal)–Flexible, effective, easy to use formulation
- Bulk: Available at selected retailers only
- Case configuration: 2 x 2.5 gallon jugs

Registered Crops

- | | |
|----------------------------|------------------------------|
| ■ Alfalfa grown for seed* | ■ Peanut |
| ■ Beans, dry and succulent | ■ Rice |
| ■ Clover grown for seed* | ■ Sorghum (grain and forage) |
| ■ Corn (all types) | ■ Soybean |
| ■ Peppermint and spearmint | |
| ■ Peas, dry and succulent | |

*State specific registrations: Refer to product label.

Best Use Recommendations

- Use Rate: 1.2 and 1.6 pints/A
- Maximum Seasonal Use Rate: 3.2 pints/A
- Adjuvants: MSO, COC or NIS
 - Refer to product label for recommended adjuvants by crop
- Water Volume: 15 to 20 gal/A
 - Basagran 5L herbicide is effective through “contact” action, therefore weeds must be thoroughly covered with spray solution

Weeds Controlled**

- | | |
|-------------------------|---------------------------|
| ■ Anoda, spurred | ■ Nightshade, hairy |
| ■ Balloonvine | ■ Nutsedge, yellow |
| ■ Beggarticks | ■ Pointsettia, wild |
| ■ Buckwheat, wild | ■ Purslane, common |
| ■ Cocklebur | ■ Radish, volunteer |
