

We create chemistry to accelerate sustainability

BASF has a wide variety of available products that are considered to offer a substantial sustainability contribution to the marketplace. Our line of sustainable engineered plastics, thermoplastic polyurethanes and polyurethane resins can help you meet your goals and those of your downstream partners.

BASF has grades of plastics and polyurethanes like Ultramid®, Elastollan®, Ultradur®, Nypel® and Petra® that can help accelerate your sustainability programs by offering one or more of the following benefits:

Resource Efficiency

Product allows for higher throughput and/or less resources needed to process

Downstream cost savings

Product allows for cost savings downstream like using less material or replacing a higher cost material

Recycled Content

Product incorporates post-consumer and post-industrial content

Emissions and Energy Reduction

Product helps realize reduction of downstream pollution. Product contributes to lower energy footprint compared to industry standards.

Health and Safety

Product tackles toxicity issues or other health and safety related issues. For example, we offer numerous products that are halogen free.

Bio-based content

Product incorporates a raw material that is based off non-fossil fuel resources.

We would love to chat more with you around our sustainable product offerings, commitment to a circular economy, our CO₂ management programs and goal to hit net zero emissions, future endeavors surrounding next gen technology and many more.

Portfolio Overview

Series Name	Product Offerings	Resource Efficiency	Downstream Cost Savings	Recycled Content	Emissions Reduction	Health and Safety	Biobased Content	Product Carbon Footprint
Nypel®	PA6 & PA66							
Ultramid®	PA6, PA66, PA66/6, unreinforced, GF10 – 65, FR, HSP, CCYD, LS, LT							
Ultramid® Advanced	PA6T/6, a 9T unreinforced, GF30 to GF50, extrusion & HR & FR & LFX grades							
Ultramid® Balance	Mostly based on natural resources, unreinforced, GF30, uncolored							
Ultramid® T KR	PA6T/6, unreinforced, GF30 to GF50, FR grades							
Ultadur® B4300	PBT, GF10 to GF30, UNC HSP, LS HSP Black, HR, HR LS Black, HR LT Black							
Ultadur® B4330	PBT, GF15 to GF30, HR UNC, HR Black							
Ultadur® B4450	PBT, FR, G25, HR UNC, HR Black							
Ultradur® LUX	PBT, GF20 to GF30, HR UNC, HR Black							
Petra®	PET							
Elastollan®	TPU							
Elastocoat® C	Polyurethane coating							
Elastoflex®	Resin							

Notes

CCYD – ChemCycling **HR** – Hydrolysis Resistant **LS** – Laser Sensitive
FR – Flame Retardant **HSP** – High Speed **LT** – Laser Transparent
GF – Glass Fiber **LFX** – Long Fiber Reinforced **UNC** – Uncolored

Please contact your BASF account rep or our technical service department for more information on products from Elastocoat®, Elastoflex®, Elastollan®, Nypel®, Petra®, Ultradur®, and Ultramid® or to inquire on how to request a product carbon footprint report.
