

# Information Sheet Product Safety

Page: 1/5

BASF Information Sheet Product Safety - No substitute for the safety data sheet !

Date / Revised: 05.07.2019

Version: 2.0

Product: **Kauropal® 933 liquid**

(ID no. 30260591/ISP\_GEN\_RW/EN)

Date of print 07.10.2025

## 1. Substance/preparation and company identification

### Kauropal® 933 liquid

Use: Raw material for the chemical-technical industry

Company:

BASF SE

67056 Ludwigshafen

GERMANY

Division Monomers

Telephone: +49 621 60 42737

E-mail address: pss.monomers@basf.com

## 2. Chemical nature

Oxirane, 2-methyl-, polymer with oxirane, mono(2-propylheptyl) ether

CAS Number: 166736-08-9

Number:

CAS

166736-08-9

## 3. Specific ingredients

**VOC content:**

Basis of registration: Ordinance on the Incentive Tax on Volatile Organic Compounds SO 814.018 (OVOC) (Switzerland)

Volatile organic compound VOC: 0,00 %

Basis of registration: Directive 2010/75/EU of the European Parliament and of the Council of 24 November 2010 on industrial emissions (integrated pollution prevention and control)

Volatile organic compound VOC: &lt; 0,1 %

BASF Information Sheet Product Safety - No substitute for the safety data sheet !

Date / Revised: 05.07.2019

Version: 2.0

Product: **Kauopal® 933 liquid**

(ID no. 30260591/ISP\_GEN\_RW/EN)

Date of print 07.10.2025

Remarks: The total volatile organic compound (VOC) means the fraction of volatile organic compounds, expressed in %, in the formulation of the product in its ready to use condition. The calculation is done considering any organic compounds, well as the fraction of creosote, having at 20 °C vapor pressure of 0,01 kPa or more. The measurement did not take place.

Basis of registration: Directive 2004/42/CE of the European Parliament and of the Council organic compounds on the limitation of emissions of volatile organic compounds due to the use of organic solvents in certain paints and varnishes and vehicle refinishing products

Volatile organic compound VOC: < 0,1 %

Remarks: The total volatile organic compound (VOC) means the fraction of volatile organic compounds, expressed in %, in the formulation of the product in its ready to use condition. The calculation is done considering any organic compound having an initial boiling point less than or equal to 250°C measured at a standard pressure of 101,3 kPa. The measurement did not take place.

**Product does not contain:**

Components of animal origin

Components of plant origin

mineral oil

Mineral oil aromatic hydrocarbons (MOAH)

Mineral oil saturated hydrocarbons (MOSH)

Polycyclic aromatic hydrocarbons (PAH)

Perfluorooctane sulfonates (PFOS)

Perfluorinated tensides (PFT)

aromatic amines

aromatic components

Conflict minerals according to U.S. "Dodd- Frank Wall Street Reform and Consumer Protection Act": Sec. 1502.

Nonylphenols (NP)

Nonylphenol ethoxylates (NPE)

Benzotriazoles

biocides

Organic tin compounds.

Ozone depleting substances

isocyanate

Halogenated organic compounds

Glycolates or glycolate derived substances

Substances which were produced using genetically modified organisms.

Phthalates

borate

Nitrosamines

asbestos

Asphalt

Polychlorinated Dibenzodioxins and Dibenzofurans

Polybrominated biphenyls (PBB)

Polychlorinated biphenyls/terphenyls

bisphenol A

2,2',6,6'-Tetrabromo-4,4'-isopropylidenediphenol

Triphenyl phosphate

tris(2-butoxyethyl)phosphate

Tris(2-ethylhexyl) phosphate

1,1'-(Ethane-1,2-diyl)bis[pentabromobenzene]

tributyl phosphate

Stannane, dibutylbis[(1-oxododecyl)oxy]-

**Diocetyl tin oxide****Candidate List according to Article 59(1) REACH**

BASF checks after each inclusion of new substances in the "Candidate List", whether our products contain such substances in a concentration above 0,1% (w/w). Should this be the case, a corresponding reference will be included in chapter 3 of the relevant EU safety data sheets within four weeks the latest. We will automatically dispatch the updated versions to all customers, which obtained these products from us within the last twelve months.

The a.m. substances are not used in the manufacture of the product either as raw materials or as additives. Therefore the title product has not been analyzed for these substances. However, based on our knowledge of the composition of the raw materials and additives and the manufacturing process involved, it can be stated with a reasonable degree of certainty that the a.m. substances should not be present in the product, except those small ubiquitous traces, which may be detectable all over the world.

As our products are produced under commercial industrial conditions the presence of trace quantities of impurities cannot be excluded.

**F o r n o t i c e :** The assessment about the Mineral oil saturated hydrocarbons (MOSH), Mineral oil aromatic hydrocarbons (MOAH) and mineral oil as such, is made based on the CAS numbers registry published by Concawe (reference:

Shortlist\_\_reference\_matrix\_of\_imports\_CAS\_Registry\_and\_EINECS\_numbers\_V3-2008-01988-01-E.xls, Version 3.0, November 2008, <https://www.concawe.eu/reach/documents-to-download/>, <https://www.concawe.eu/publication/mineral-oils-safe-human-health/>).

In view of many factors that may affect the processing and use of our product, the data in this publication do not relieve processors of the responsibility to carry out their own inspections and tests, neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose.

BASF does not recommend the use of or claim the suitability of the product in any application and, therefore, the decision to use the product is solely at our customer's own risk. It is the responsibility of our customer to determine whether their manufacturing process and the end application using the product is safe, lawful and technically suitable for the intended use. BASF extends no warranties or guarantees, express or implied, concerning the suitability of the product for any application. This especially pertains to the intended use of the product in any food / medical / pharmaceutical application.

#### 4. Status of registration in inventories

Country	List/Inventory	Registration status
Australia	AICS, AU	Exceedance of the quantity limit must be reported to the Competent Authority. Competent Authority will then decide if secondary notification is required.
Canada	DSL, CA	All substances are listed.
China	IECSC, CN	Listed or exempted.
Relevant for Regulation REACH		released / components are registered, pre-registered or exempt This is valid if supplied by BASF SE or one of its EU BASF legal entities. If you purchase from a Non EU BASF company please contact your local sales contact for more information
Japan	ENCS/IS, JP	Listed or exempted.
Korea (south)	ECL, KR	This product contains components which

BASF Information Sheet Product Safety - No substitute for the safety data sheet !

Date / Revised: 05.07.2019

Version: 2.0

Product: **Kauopal® 933 liquid**

(ID no. 30260591/ISP\_GEN\_RW/EN)

Date of print 07.10.2025

		are subject to registration.
Korea (south)	ECL, KR	This product contains components which are subject to registration. Please contact your sales representative
New Zealand	NZIOC, NZ	Listed or exempted.
Philippines	PICCS, PH	Listed or exempted.
Switzerland	CHEMINV, CH	Listed or exempted.
Taiwan	TCSI, TW	All components of this product are listed or exempted. The components are registered or preregistered or exempted from registration. This product can be purchased domestically from BASF Legal Entities in Taiwan. If you purchase from a non-Taiwanese BASF Legal Entity please contact your local sales representative for more information.
USA	TSCA, US	All substances are listed.

## 5. Registration in product registers

The product information has not been checked. If required, appropriate checks can be made on request.

## 6. Food contact regulations

For questions regarding food contact, please contact your sales representative.

**For notice:** Appropriate processing conditions for the articles have to be applied. The suitability of the articles for the application concerned, including their effect on smell and taste of the food, and observance of any given limitations (for example overall migration, specific limits and other analytical requirements) must be tested and ensured in each case by the person who introduces the articles into circulation.

## 7. Branch specific regulations

### Automotive list:

GADSL (Global Automotive Declarable Substance List)

The product meets the requirements of the above listed reference.

### Electrical and Electronic Equipment:

RoHS Directive (2011/65/EU, as amended)

The product meets the heavy metal, polybrominated biphenyls (PBBs) and polybrominated diphenyl ethers (PBDEs) and phthalate limits of the above listed references.

### End of Life Vehicles:

EU Directive 2000/53/EC on end-of life vehicles and amendment 2002/525/EC concerning heavy metals.

The product meets the heavy metal limits of the above listed reference.

BASF Information Sheet Product Safety - No substitute for the safety data sheet !

Version: 2.0

Product: **Kauopal® 933 liquid**

(ID no. 30260591/ISP\_GEN\_RW/EN)

Date of print 07.10.2025

**Electrical and Electronic Equipment:**

China MIIT Decree 32 (including national standards, China RoHS 2.0)

The product meets the requirements of the above listed reference.

**NSF International:**

Please contact your sales representative

**Packaging and Packaging Waste:**

Directive 94/62/EC, as amended by 2004/12/EC

The product meets the heavy metal limits of the above listed reference.

**Waste:**

CONEG (Coalition of Northeastern Governors, USA)

The product meets the requirements of the above listed reference.

**Compliance with Automotive Lists:**

IMDS (International Material Data System)

Vertical lines in the left hand margin indicate an amendment from the previous version.

This 'Information sheet product safety' provides supplementary information on legal as well as branch specific regulations on chemicals for our products not covered by the material safety data sheet. This document, or any answers or information provided herein by BASF, does not constitute a legally binding obligation of BASF. This information is exclusively for our customers and respective competent authorities. While the descriptions, designs, data and information contained herein are presented in good faith and believed to be accurate at the date of publication of this document, it is provided for your guidance only. Because many factors may affect processing or application/use, we recommend that you make tests to determine the suitability of a product for your particular purpose prior to use. It does not relieve our customers from the obligation to perform a full inspection of the products upon delivery or any other obligation. NO WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE MADE REGARDING PRODUCTS DESCRIBED OR DESIGNS, DATA OR INFORMATION SET FORTH, OR THAT THE PRODUCTS, DESIGNS, DATA OR INFORMATION MAY BE USED WITHOUT INFRINGING THE INTELLECTUAL PROPERTY RIGHTS OF OTHERS. IN NO CASE SHALL THE DESCRIPTIONS, INFORMATION, DATA OR DESIGNS PROVIDED BE CONSIDERED A PART OF OUR TERMS AND CONDITIONS OF SALE. THIS STATEMENT EXPIRES 18 MONTHS AFTER THE DATE OF ISSUE or in case of regulatory changes before such date.
