Product Information: SVHC

Dear Valued Customer,

With the exceptions listed in the footnotes below:

In the manufacturing process of the product lines listed below substances included in the EU REACH (EC Regulation 1907/2006) candidate list (= substances of very high concern – SVHC) are not intentionally used or formed. Thus, we conclude that the products do not contain SVHC above 0.1 % w/w.

This statement is mainly, however without limitation to, based on our knowledge of the production process, on the products' compositions, on the raw materials used, and on statements from our raw materials suppliers.

As we do not expect SVHC to be present in the products, we therefore do not run any specific analysis on our raw materials or end products to measure for SVHC.

As only SVHC may become subject to authorization under EU REACH this SVHC statement includes substances listed on Annex XIV.

BASF SE
67056 Ludwigshafen, Deutschland

Phone: +49 621 60-0
Fax: +49 621 60-42525
E-Mail: global.info@basf.com

Registered Office:
67056 Ludwigshafen

Registration Court:
Amtsgericht Ludwigshafen
Registration No.: HRB 6000

Chairman of the Supervisory Board:
Kurt Bock

Board of Executive Directors:
Markus Kamieth, Chairman;
Dirk Elvermann; Michael Heinz;
Anup Kothari; Stephan Kothrade;
Katja Scharpwinkel

This statement refers to the following candidate list version:

Candidate list, last updated: 25 June 2025

Current number of entries on the Candidate List = 250

SVHC inclusion date 25 June 2025 and earlier

Link to Candidate List on ECHA-Homepage:

This statement applies to the following product lines:

3S Modifier
BASOTECT®
CAPRON®^{2,3}
ECOFLEX®
ECOVIO®
ULTRADUR®³
Ultraform AT®³
ULTRAMID®^{3,4}
ULTRASON®⁵

² Capron® 8233GYL5853C, 8350YL5853C, 8333GBDYL5853C excluded

³ Colour concentrates designated as 'CONC' in the trade name excluded

⁴ ULTRAMID® 68 H2 V0H RD5465 POLYAMIDE excluded

⁵ Ultrason® KR 4113 excluded

F o r n o t i c e : Many substances are present in small quantities anywhere, they are ubiquitous. The observance of all these substances is not part of BASF's ongoing production control. In view of the many factors that may affect processing and application of our products, these data do not relieve the processor from carrying out their own investigations and tests, neither do these data imply any guarantee for certain properties nor the suitability of the product for a specific purpose.

This product information was generated electronically and is valid without signature.

BASF SE

This document is only valid for 18 months from the date of issue. It is intended exclusively for our customers and the respective competent authorities who need to know it for legal or regulatory purposes. This document may not be published in printed or electronic form (e.g. via the Internet) without our prior written consent.

This document or any responses or information provided herein by BASF do not constitute a legally binding obligation on the part of BASF. The descriptions, designs, data and information contained herein are presented to the best of our knowledge and belief and are believed to be correct but are for informational purposes only. They do not constitute an agreement regarding a specific suitability for use or a guarantee of specific properties. Subjective and/or objective requirements for the product are expressly excluded. Since many factors can influence the processing, application or use, no statement on the suitability of the product for a specific purpose can be derived from our information. Rather, it is the customer's responsibility to carry out tests before using a product in order to determine its suitability for its own specific purpose. No warranties of any kind, express or implied, including the warranties of merchantability or fitness for a particular purpose, are made with respect to the products described or the designs, data or information presented, or that the products, designs, data or information can be used without infringing the intellectual property rights of others. In no event shall the descriptions, information, data or designs provided be considered part of our General Conditions of Sale.

Products made with recycled polymers as raw materials (products that feature 'RC' in their trade name):

Products of the above-mentioned product lines that feature 'RC' in their trade name contain components, ingredients, and/or raw materials that have been manufactured by a recycling process, which means that they are manufactured from end-of-life residue or waste material as feedstock. Waste as a raw material can exhibit fluctuating chemical composition and can contain significantly higher levels of contaminants of various and/or potentially unknown types. Therefore, also the products manufactured from waste through recycling processes must be expected to have a spectrum of impurities which may vary to a stronger extent from batch to batch.

As BASF has no influence on the contamination spectrum of waste materials used in recycling processes or of external raw materials that have resulted from recycling and BASF does not monitor such contamination spectrum, BASF does not assume any liability and provides no guarantees regarding compliance with certain value limits and/or the general or specific absence of impurities or contaminations for these products.

Consequently, BASF does not support 'RC' products for the use in any sensitive applications (e.g. food contact, drinking water, medical, toys and/or consumer goods).
