

# Loxanol® CA 5308

Highly efficient coalescing agent based on dicarboxylic acids-diisobutyl ester

## Application:

**Loxanol® CA 5308** is a highly efficient coalescing agent for interior paints, exterior paints, elastomeric coatings, textured finishes, and wood coatings.

## Sustainability Highlights:

- Low odor
- APEO-free

## Performance Highlights:

- Very low odor
- Highly efficient coalescing effect
- Improved scrub resistance
- No VOC

## Characteristic Values:

	Loxanol® CA 5308
Appearance:	Liquid
Density @ 20°C [g/cm³]:	~ 0.96
Acid Value [mg KOH/g]:	≤ 1
Water content [%]:	≤ 0.3
