

Foamaster® MO 2170

Efficient defoaming performance in the manufacture and application of paints and inks from synthetic latex

Application:

Foamaster MO 2170 provides efficient defoaming performance in the manufacture and application of paints and inks from synthetic latex. It is recommended for defoaming waterborne architectural coatings. It may also be suitable for defoaming aqueous printing inks.

Sustainability Highlights:

- Low Odor
- APEO-Free
- Low VOC

Performance Highlights:

- Efficient defoaming performance
- 100% active

Characteristic Values:

Foamaster MO 2170	
Appearance:	Opaque, yellow liquid
Density:	6.6 – 7.2 lb/gal
Water Content:	0.0 – 0.3 %
Active Matter:	7.3 – 8.5 %
