

Dispex® Ultra FA 4425

Dispersing agent for universal colorants for decorative tinting systems

Application:

Dispex Ultra FA 4425 stabilizes all kinds of pigments and extenders in water- and solvent-based systems, especially in decorative coatings. When using universal colorants in decorative paints, the addition of Dispex Ultra FA 4425 to the base paints (water and solvent) can increase compatibility and color acceptance, especially in water-based and ultra-low aromatic content decorative paints.

Sustainability Highlights:

- Biocide free
- Low VOC

Performance Highlights:

- Dispersing agent for universal colorants for decorative tinting systems
- Makes colorants with excellent compatibility and stability
- Maximum color development of the colorant
- Higher pigment loading
- Optimum color acceptance of the colorants in the base-paints

Characteristic Values:

	Dispex Ultra FA 4425
Appearance:	Brownish liquid
Density at 20 °C:	~ 1.04 g/cm ³
Active ingredients:	~ 100%
Gardner color number	≤ 18
