

Loxanol® PL 5031

A hydrophobizing agent for paints and textured finishes

Application:

Loxanol PL 5031 is a plasticizer with excellent performance as part of the tackifier resin melt in flooring adhesives, for excellent adhesive properties

Sustainability Highlights:

- Tin-free

Performance Highlights:

- Cohesion of the adhesive film is maintained to a large extent

Characteristic Values:

Loxanol PL 5031	
Solids content	≥ 99%
pH Value:	5.0 - 7.0
Viscosity at 20°C:	~ 41 mPa·s
Density:	~ 1.1 g/cm ³
