

# Efka® PB 2001 S

Silicone-free defoamer for non-aqueous coatings

## Application:

- Efka PB 2001 S is a silicone-free defoamer for non-aqueous coatings and inks
- It is especially suited for
  - Nitrocellulose lacquers, especially applied on curtain coaters
  - 1- or 2-pack acid-curable wood coatings
  - 2-pack PUR paints applied by spraying or brushing
  - Paints based on acrylic resins
  - Air-drying paints based on epoxy resins

## Performance Highlights:

- Eliminates foaming and blistering in a broad range of high viscous solvent-based industrial and wood coating applications
- Including 2-pack epoxy, unsaturated polyester and PUR systems

## Characteristic Values:

Efka PB 2001 S	
Appearance:	Clear colorless to light brown liquid
Density at 20°C [g/cm³]:	~ 0.83
Viscosity [mPas]:	~ 125
Solid content [%]:	26
Solvent:	hydrocarbons
