

## FoamStar® SI 2299

Organomodified silicone active based deaerator and defoamer for aqueous spray applications

## High efficiency combined with good compatibility

- Highly efficient deaerator and defoamer
- Good compatibility
- Allows for post-adjustment of formulation
- Excellent long-term persistency

## FoamStar® SI 2299: Characteristic Values

| Appearance | colorless to<br>slightly<br>yellowish, clear<br>to slightly hazy<br>liquid |
|------------|--|
| Density    | 1.00 g/cm <sup>3</sup>   |
| Viscosity  | 20 mPa.s   |

Also suitable for heavy-duty anticorrosion spray coatings
