

Revision date: 2025/04/22 Page: 1/10

Version: 2.0 (30035115/SDS_GEN_DO/EN)

1. Identification

Product identifier used on the label

1,2-Propandiol USP

Recommended use of the chemical and restriction on use

Recommended use*: feed, feeding stuff

Details of the supplier of the safety data sheet

Company:

BASF Dominicana S.A Av. Winston Churchill Acropolis Center Tower 8vo Piso. SPATIUM Pinatini, 10148

Santo Domingo, República Dominicana

Telephone: (1) 809 334-1026

Emergency telephone number

24 Hour Emergency Response Information

CHEMTREC 1-703-527-3887

Or call 911

Other means of identification

Chemical family: glycols

Synonyms: 1,2-Propylene Glycol

2. Hazards Identification

According to NORDOM 836 - 2

Classification of the product

No need for classification according to GHS criteria for this product.

^{*} The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

Revision date: 2025/04/22 Page: 2/10 Version: 2.0 (30035115/SDS GEN DO/EN)

Label elements

The product does not require a hazard warning label in accordance with GHS criteria.

Hazards not otherwise classified

If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture.

3. Composition / Information on Ingredients

According to NORDOM 836 - 2

Under the referenced regulation, this product does not contain any components classified for health hazards above the relevant cut off value.

4. First-Aid Measures

Description of first aid measures

General advice:

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air.

If on skin:

Wash thoroughly with soap and water

If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

If swallowed:

Rinse mouth and then drink 200-300 ml of water.

Most important symptoms and effects, both acute and delayed

Symptoms: No data available.

Hazards: No applicable information available.

Indication of any immediate medical attention and special treatment needed

Note to physician

Treatment: Symptomatic treatment (decontamination, vital functions).

5. Fire-Fighting Measures

Extinguishing media

Revision date: 2025/04/22 Page: 3/10 Version: 2.0 (30035115/SDS GEN DO/EN)

Suitable extinguishing media:

carbon dioxide, dry powder, water spray, alcohol-resistant foam

Unsuitable extinguishing media for safety reasons: water jet

Special hazards arising from the substance or mixture

Hazards during fire-fighting:

Cool endangered containers with water-spray.

Advice for fire-fighters

Protective equipment for fire-fighting: Wear a self-contained breathing apparatus.

Further information:

Contaminated extinguishing water must be disposed of in accordance with official regulations.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Handle in accordance with good industrial hygiene and safety practice.

Environmental precautions

Discharge into the environment must be avoided.

Methods and material for containment and cleaning up

For large amounts: Pump off product.

For residues: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). Dispose of absorbed material in accordance with regulations.

7. Handling and Storage

Precautions for safe handling

Ensure thorough ventilation of stores and work areas.

Protection against fire and explosion:

Take precautionary measures against static discharges.

Conditions for safe storage, including any incompatibilities

No applicable information available.

Further information on storage conditions: Keep container tightly closed and dry; store in a cool place. Protect from air. Protect from atmospheric humidity. Protect contents from the effects of light.

Storage stability:

Storage temperature: <= 40 °C

The stated storage temperature should be noted.

Protect from temperatures above: 40 °C

The packed product will be damaged by high temperatures.

Revision date: 2025/04/22 Page: 4/10 Version: 2.0 (30035115/SDS GEN DO/EN)

8. Exposure Controls/Personal Protection

No substance specific occupational exposure limits known.

Advice on system design:

Provide local exhaust ventilation to control vapours/mists.

Personal protective equipment

Respiratory protection:

Wear a NIOSH-certified (or equivalent) respirator as necessary.

Hand protection:

Chemical resistant protective gloves should be worn to prevent all skin contact., Consult with glove manufacturer for testing data., Protective glove selection must be based on the user's assessment of the workplace hazards.

Eye protection:

Safety glasses with side-shields.

Body protection:

Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.

General safety and hygiene measures:

Wearing of closed work clothing is required additionally to the stated personal protection equipment. Handle in accordance with good industrial hygiene and safety practice.

9. Physical and Chemical Properties

Physical state: liquid
Form: liquid
Odour: odourless
Odour threshold: not determined
Colour: colourless

pH value: 4 - 7 (internal method)

(20 °C)

Melting point: -59 °C (other)

Literature data.

Boiling point: 184 °C (Directive 92/69/EEC,

(1,003.2 hPa) A.2)

Sublimation point: No applicable information available.

Flash point: 104 °C (Directive

92/69/EEC, A.9, closed cup)

Flammability: not readily ignited (derived from flash point)

Lower explosion limit: For liquids not relevant for

classification and labelling. The lower explosion point may be 5 - 15 °C

below the flash point.

Upper explosion limit: For liquids not relevant for

classification and labelling.

Revision date: 2025/04/22 Page: 5/10 Version: 2.0 (30035115/SDS_GEN_DO/EN)

> 400 °C Autoignition: (Directive

84/449/EEC, A.15)

Vapour pressure: 0.2 hPa (Directive

> (25°C) 92/69/EEC, A.4) (Regulation

Density: 1.03 g/cm3 (20°C) 440/2008/EC, A.3)

(Directive

Relative density: 1.03

(20°C) 92/69/EEC, A.3)

Relative vapour density: not applicable

Partitioning coefficient n-(Directive -1.07 92/69/EEC, A.8) octanol/water (log Pow): (20.5 °C) 1.431 - 1.433 Refractive index: (DIN 51423-2 (20°C) (n2D20))

Self-ignition 20°C

temperature: not self-igniting

No decomposition if correctly stored and handled. Thermal decomposition:

Viscosity, dynamic: 43.428 mPa.s

(25°C)

Literature data.

Viscosity, kinematic: No data available.

No applicable information available.

Solubility in water: (20°C) miscible

Solubility (quantitative): No applicable information available.

Solubility (qualitative): soluble

solvent(s): polar solvents,

Molecular weight: 76.10 g/mol

Evaporation rate: Value can be approximated from

Henry's Law Constant or vapor

pressure.

Particle characteristics

Particle size distribution: The substance / product is marketed or used in a non solid or granular

form. - Study scientifically not justified.

10. Stability and Reactivity

Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

Corrosion to metals:

No corrosive effect on metal.

Oxidizing properties: not fire-propagating

Formation of Remarks: Forms no flammable gases in the

flammable gases: presence of water., Study scientifically not justified.

Chemical stability

The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions

Revision date: 2025/04/22 Page: 6/10 Version: 2.0 (30035115/SDS GEN DO/EN)

No hazardous reactions if stored and handled as prescribed/indicated.

Conditions to avoid

> 40 degrees Celsius

Avoid humidity. Avoid daylight. Disregard of the conditions mentioned may result in undesirable decomposition reactions.

Avoid direct sunlight.

Incompatible materials

zinc, strong oxidizing agents

Hazardous decomposition products

Decomposition products:

Possible decomposition products: carbonyl compounds, Dioxolan derivatives

Thermal decomposition:

No decomposition if correctly stored and handled.

11. Toxicological information

Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

Acute Toxicity/Effects

Acute toxicity

Assessment of acute toxicity: Virtually nontoxic after a single ingestion. Virtually nontoxic after a single skin contact. In animal studies the substance is virtually nontoxic after short-term inhalation.

<u>Oral</u>

Type of value: LD50 Species: rat (male/female) Value: > 22,000 mg/kg

Inhalation

Type of value: LC50 Species: rabbit

Value: > 317042 mg/m3 Exposure time: 2 h An aerosol was tested.

Dermal

Type of value: LD50 Species: rabbit Value: > 2,000 mg/kg No mortality was observed.

Assessment other acute effects

Assessment of STOT single:

Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

Revision date: 2025/04/22 Page: 7/10 Version: 2.0 (30035115/SDS_GEN_DO/EN)

Irritation / corrosion

Assessment of irritating effects: Not irritating to the skin. Not irritating to the eyes. Aerosol exposure may cause temporary irritation of eyes, nose and throat.

Skin

Species: rabbit Result: non-irritant

Method: OECD Guideline 404

Eve

Species: rabbit Result: non-irritant

Method: OECD Guideline 405

Sensitization

Assessment of sensitization: Skin sensitizing effects were not observed in animal studies.

Guinea pig maximization test

Species: guinea pig Result: Non-sensitizing.

Aspiration Hazard not applicable

Chronic Toxicity/Effects

Repeated dose toxicity

Assessment of repeated dose toxicity: Repeated oral uptake of the substance did not cause substance-related effects.

Genetic toxicity

Assessment of mutagenicity: No mutagenic effect was found in various tests with bacteria and mammalian cell culture. The substance was not mutagenic in studies with mammals.

Carcinogenicity

Assessment of carcinogenicity: In long-term animal studies in which the substance was given in high doses by feed, a carcinogenic effect was not observed.

Reproductive toxicity

Assessment of reproduction toxicity: The results of animal studies gave no indication of a fertility impairing effect.

Teratogenicity

Assessment of teratogenicity: No indications of a developmental toxic / teratogenic effect were seen in animal studies.

Other Information

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

12. Ecological Information

Toxicity

Revision date: 2025/04/22 Page: 8/10 Version: 2.0 (30035115/SDS_GEN_DO/EN)

Aquatic toxicity

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms. Inhibition of degradation activity in activated sludge is not to be anticipated during correct introduction of low concentrations.

Toxicity to fish

LC50 (96 h) 40,613 mg/l, Oncorhynchus mykiss (Fish test acute, static)

Aquatic invertebrates

EC50 (48 h) 18,800 mg/l, Mysidopsis bahia

Aquatic plants

EC50 (72 h) 24,200 mg/l (growth rate), Selenastrum capricornutum (OECD Guideline 201)

Chronic toxicity to fish

Study scientifically not justified.

Chronic toxicity to aquatic invertebrates

No observed effect concentration (7 d) 13,020 mg/l, Ceriodaphnia sp.

Assessment of terrestrial toxicity

Study does not need to be conducted.

Soil living organisms

Toxicity to soil dwelling organisms:

Study scientifically not justified.

Toxicity to terrestrial plants

Study scientifically not justified.

Other terrestrial non-mammals

Study scientifically not justified.

Microorganisms/Effect on activated sludge

Toxicity to microorganisms

aquatio

bacterium/EC0 (18 h): > 20,000 mg/l

Persistence and degradability

Assessment biodegradation and elimination (H2O)

Readily biodegradable (according to OECD criteria).

Elimination information

81.7 % CO2 formation relative to the theoretical value (28 d) (OECD Guideline 301 F) (aerobic, activated sludge, domestic)

90.6 % CO2 formation relative to the theoretical value (64 d) (OECD Guideline 306) (aerobic, Seawater)

Revision date: 2025/04/22 Page: 9/10 Version: 2.0 (30035115/SDS GEN DO/EN)

Bioaccumulative potential

Assessment bioaccumulation potential

Because of the n-octanol/water distribution coefficient (log Pow) accumulation in organisms is not to be expected.

Mobility in soil

Assessment transport between environmental compartments

Study scientifically not justified.

Additional information

Other ecotoxicological advice:

Do not release untreated into natural waters.

13. Disposal considerations

Waste disposal of substance:

Dispose of in accordance with national, state and local regulations.

Container disposal:

Uncontaminated packaging can be re-used. Packs that cannot be cleaned should be disposed of in the same manner as the contents.

14. Transport Information

Land transport

TDG

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

Air transport IATA/ICAO

Not classified as a dangerous good under transport regulations

15. Regulatory Information

Federal Regulations

Not applicable

NFPA Hazard codes:

Health: 0 Fire: 1 Reactivity: 0 Special:

Assessment of the hazard classes according to UN GHS criteria (most recent version):

Revision date: 2025/04/22 Page: 10/10 Version: 2.0 (30035115/SDS_GEN_DO/EN)

16. Other Information

SDS Prepared by:

BASF NA Product Regulations SDS Prepared on: 2025/04/22

We support worldwide Responsible Care® initiatives. We value the health and safety of our employees, customers, suppliers and neighbors, and the protection of the environment. Our commitment to Responsible Care is integral to conducting our business and operating our facilities in a safe and environmentally responsible fashion, supporting our customers and suppliers in ensuring the safe and environmentally sound handling of our products, and minimizing the impact of our operations on society and the environment during production, storage, transport, use and disposal of our products.

This information is considered accurate but is not exhaustive and shall only be used as a guideline based on current knowledge of the chemical substance or mixture. Safety precautions suitable for the product must be applied.
